

Grade 2

Mathematics

1. I know three ways to use addition in my daily life.
(Power 2's might name time, measurement, etc. – power 3's would tell where/when you measure or use time)
2. Explain the steps in adding two-digit numbers involving regrouping.

Language Arts

1. Endmarks can be used in three very different ways.
2. Write 3 characteristics of (author)'s books.

Science

1. Describe 3 reasons why animals become endangered.
2. Describe at least three ways magnets are useful in our lives.
3. Describe three ways animals survive in winter. (ex. migrate, hibernate, adapt)

Social Studies

1. Explain the three differences between two Native American tribes.
(ex. food, shelter, transportation)
2. Describe 3 Native American habitats.
